#### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## User Stories

Use the below template to list all the user stories for the product.

| User Type               | Functional Requirement (Epic) | User Story Number | User Story / Task   | Acceptance criteria                              | Priority | Release  |
|-------------------------|-------------------------------|-------------------|---|--|----------|----------|
| Customer (Mobile user)  | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password. | I can access my account / dashboard              | High     | Sprint-1 |
|                         |                               | USN-2             | As a user, I will receive confirmation email once I have registered for the application                   | I can receive confirmation email & click confirm | High     | Sprint-1 |
|                         |                               | USN-3             | As a user, I can register for the application through Gmail   | I can receive confirmation gmail                 | Medium   | Sprint-1 |
|                         | Login                         | USN-4             | As a user, I can log into the application by entering email & password                                    | It make my account more secure                   | High     | Sprint-1 |
|                         | Dashboard                     | USN-5             | User can search any product what they want to purchase  | It is easy for finding needed products           | Medium   | Sprint-1 |
| Customer (Web user)     | Search                        |                   | The application shows similar products that are related to searched products                              | I can see related products                       | Medium   | Sprint-1 |
| Customer Care Executive |                               |                   | Customer care make some changes that are provided by customers  | User can rectify the issues                      | High     | Sprint-1 |
| Administrator           | Chat                          |                   | User can confirm the selected product by the message from administrator                                   | User can confirm the order                       | High     | Sprint-1 |
